

Ground Skid Blind

The Southern Deer Stands Ground Skid Blind is part of the Accessibility Series. It is designed for any hunter that needs ground level access to a high quality hunting blind. This blind is ideal for older hunters that no longer wish to hunt from elevated towers, hunting with young children or hunters who need wheelchair accessibility. For hunters with accessibility needs we have wheelchair ramps, 38 inch wide doors and lower window heights. Not pictured but included, are the ground skids that enable this blind to be pulled to new locations with a tractor or ATV.
